EDUCATION

Bachelor of Computer Applications
Mahatma Gandhi University, Kottayam, India

2020 - 2023   *CGPA-6.8/10*

Relevant Modules:

- Computer Applications, Object Oriented Programming Concepts, Data Structures, Advanced Statistics, Discrete Mathematics, Computer Networks, System Analysis and Software Engineering, Web Development using PHP, Python and MySQL.

HSE - Computer Science
St. Aloysius Higher Secondary School, Edathua, Kerala, India

2018 - 2020   *CGPA-7.5/10*

Relevant Modules:

- Mathematics, Statistics, Physics and Computer Science with basic programming in C, C++ and MySQL.

WORK EXPERIENCE

Full Stack Developer Intern
Luminar Technolab, Kochi

06/2023 - 12/2023   *Kerala, India*

Fulfillments:

- Gone through the concepts of full stack web development using different technologies mainly with Python codes with class based models and function based views.

- Leveraged SQLite for storing and retrieving of data models mainly in data, image, file, audio, and video formats ensuring free and enhanced data flow through modules.

- Developed and executed more than three full stack development projects individually and collaborating with teams, also integrated its testing and working phases.

Project Intern
Riss Technologies, Kochi

01/2023 - 03/2023   *Kerala, India*

Fulfillments:

- Demonstrated the development process of academic project through preparing the software development lifecycle (SDLC) and prepared SRS Documents prior preparation.

- Collaborated with my mentors in doing my academic project resulting in A Graded project result.

- Executed my first python project by individually working on my project with the support of my mentors, resulting in a successful project completion and presentation.

TECHNICAL SKILLS

`HTML5` `CSS3` `Python` `Django` `MySQL`
`SQLite` `JavaScript` `Bootstrap` `jQuery & Git`

KEY PROJECTS

AudioCad Music Player (03/2024 - 04/2024)
- Developed a sample audio media player in which we can add songs of our own along with its relevant details which accesses an attractive looking media player.
- Provided a simple but advanced looking front-end and complex yet simple looking back-end which gives a professional looking software app.
- **Technology Stack:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, Python, Django and SQLite.

Flybus.com website for booking and tracking of goods and services (08/2023 - 12/2023)
- Developed as a website for tracking and booking of goods and services mainly freights and cargo through online platforms.
- Implemented mail feature which helps to send tracking id to users through registered email accounts.
- . **Technology Stack:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, Python, Django and SQLite.

Reinforce.com website for buying and booking home services (07/2023 - 10/2023)
- Implemented as a website for buying of electrical, mechanical and plumbing products for home renovation.
- Access service page for booking appointments of electricians, plumbers and mechanics whenever needed.
- **Technology Stack:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, Python, Django and SQLite.

Color My World project for home interior designing and bookings (01/2023 - 03/2023)
- Made as an application for buying room interior designing products such as curtains, floor-mats etc.
- It also has access to service pages to book appointments from interior designers and to chat with them.
- **Technology Stack:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, Python and MySQL.

CERTIFICATIONS

Python Web Development Expert (2024)
*Awarded from **Luminar Technolab, Kochi**.*

Degree Graduation Certificate (2023)
*Awarded from **Mahatma Gandhi University, Kottayam** after successfully completing Bachelor's Degree in Computer Applications..*

Academic Project Completion Certificate (2023)
*Awarded from **Riss Technologies, Kochi**.*
